

Syrex 5 and XN

- High sound output (105dB) for areas with higher background noise
- Weatherproof to IP54
- Choice of voltages for all applications
- Multi purpose base with a variety of cable entries and fixing holes for easy installation
- Volume control for greater flexibility
- Choice of colours

The Syrex 5 is a high output sounder designed for both fire alarm and industrial applications. With a sound output of 105dB and a choice of three tones, it is ideal for fire alarm applications in areas with higher background noise such as industrial units and warehouses.

The Syrex 5 XN range includes a powerful xenon beacon to provide both audible and visual alarms where required.

With a wide choice of voltages, including 110/230V AC, the Syrex 5 is equally suited for use in industrial applications.

Applications

- Fire alarm
- Conveyor
- Cranes
- Moving machinery
- Process control alarm
